

Testimonials For David M. Winchell

"Dave Winchell was introduced to me by a respected friend and professional associate of over 25 years. My friend recommended Dave as a potential candidate for Process Partners' consulting practice. In my first meeting with Dave I was impressed with his business experience, intellect, and natural inquisitiveness, all key in being effective as a management consultant. Dave currently works with Process Partners, as an Associate Consultant, in providing business process improvement guidance to our clients. Dave consistently proves to be very valuable to Process Partners and our clients. In addition to his assets I recognized in our first meeting, Dave also demonstrates professionalism, un-questioned integrity, an excellent attention to detail and excellent problem solving capabilities."

"I found him to be a person who possesses an analytical mind capable of taking complex projects and distilling them down into pieces to be easily digested and properly executed by his staff. I believe this to be one of his greatest strengths. Dave also has a keen sense of duty and for "doing what is right" for the company and its people – a trait that I personally found refreshing and highly desirable in an executive."

"Having worked for Dave for 3 of 5 years at Foot Solutions I strongly recommend him for employment. While his technical skills are impeccable, he is also creative; a crucial attribute in any business, as you know. Dave embraced leadership opportunities and would always step forward to lead the team. He is also fun to be around. When deadlines loom, tension can build. But he always knew how to add levity to the situation while keeping the team on task. With his take-charge attitude, inclusive approach and strong grasp of industry concepts, Dave would be an asset to any organization. I am confident Dave will exceed your expectations."

"I have known and worked with Dave since April of 2004. He is a very hard working, dedicated individual who puts the company's best interests first. Dave is detailed oriented and meticulous in his work and analysis of various projects, always willing to listen to others and work with them hand in hand. He taught various management skills in my pedorthic education classes, giving students a solid background in the successful management of their franchise businesses. I would highly recommend Mr. Winchell to any company that values a dedicated detail oriented executive who places a high value on accuracy and detailed analysis."
